

Thermal Performance – Piano House

Location: Adelaide, SA
Budget: \$550,000.00
Energy Rating: 8.4 Star
Blower Door: 5.1 ACH@50p.a.

INTERNAL TEMPERATURE WITHOUT THE USE OF ANY MECHANICAL COOLING OR HEATING

Air Barrier

Our construction system, which incorporates an air barrier is an assembly of materials with a combined effect to considerably reduce air leakage throughout the home resulting in significantly reduced energy consumption and increased thermal and acoustic comfort. Our homes are designed to naturally breathe at rates of 0.20 ACH.

ACH (Air Changes per Hour)

Blower Door test figures at 50 pascal's (imperial measurement for internal pressure)

Typical New home construction >15.5 ACH @ 50pa.
